MEMORANDUM

17 November 1952

TO: []
FROM: []
SUBJECT: Monthly Report, HTGrubby
15 October-15 November

1. Program Content. HTGrubby broadcast every day during this period with the exception of 4 November. Among the topics upon which much emphasis was placed were the following: "The Soviet Reaction to Ambassador Kennan's Statement", "Enver Hoxha's Return from Moscow", and several appeals to various groups in KMWaahoo such as the teachers, intellectuals, etc. Various staff members of HTGrubby were able to interrogate Identity (1), a border crosser who held a post in the KMWaahoo Ministry of Foreign Trade, and thus obtain some information on BGGypsy economic failures such as the Stalin Textile Combine, and the Korce sugar factory, all of which enriched the "Communist Paradise" feature of the program. It is hoped that in the future we will obtain adequate information so as to make appeals to KMWaahoo workers on various state projects for passive resistance. }

2. Internal Reception and Effect. Fig team reported that HTGrubby was audible on some of the occasions they tried to receive us, however, the message was not very precise as to how many times or just when they did try to hear us, although it indicated that daytime reception was better than in the evening. Fig also stated that the broadcasts were effective but that listening was forbidden. There has been no report from Apple team as yet concerning reception of HTGrubby. Our monitor in Brindisi reported that HTGrubby was audible and intelligible most of the time from 29 September to 4 October. He also reported that presence of an interfering telegraph signal which from all indications had the specific aim of jamming HTGrubby. The recommendations by the monitor as to wavelength and time changes in HTGrubby broadcasts, as well as Fig Team's report, will be discussed with the technicians.

3. Personnel. Identity (2) has applied for his visa to Greece, and through the proper channels we are trying to speed up the customary delaying tactics of Greek authorities. [] is expected in Athens shortly and the question of Identity (3) and Identity (4) joining the staff as replacements for [] and [] will be discussed at that time.

f. Conclusions

The only agent teams remaining in Albania are Apple Tree and Fig Tree. They have been briefed to remain in the country all winter, if possible. Weather will prevent any further infiltrations until next spring. We are now evaluating our assets and disposing of those agents that have outlived their usefulness. Our primary effort through the winter months will be directed toward planning and training for 1953 operations.
